Critical Information Summary

Fixed Wireless

Information about the Service

Wires Broadband offers fixed wireless broadband services to customers within its coverage areas, the service is delivered using a variety of Point to Point and Point to Multi-Point wireless technologies including WiFi, LTE and WiMax.

Required Services & Availability

To connect to this service a customer requires Line of Sight to an established access point and achieve a minim signal strength standard set by our technical staff.

Once line of sight is established an antenna is placed on the roof of the building and an Ethernet cable installed between the antenna and broadband socket inside the building.

This service is stand alone and does not require any additional phone services to support it.

Minimum Term

The minimum connection term is 12 concurrent months from the date of the service is active and ready to use, should the customer disconnect within this period a disconnection fee may be applicable.
