

## **World without Wires Complaints Procedure**

### **Wires Principle:**

All customers using Wires Broadband Services have the right to lodge a complaint. All complaints will be dealt with to ensure fair handling through objective, efficient and apparent procedures.

Wires Broadband will endeavour to resolve any issues that may arise during contact with us.

Wires complaint handling procedure complies with the standards of the Telecommunications Consumer Protection Code C628:2012 (TCP Code) and responsibility for compliance can be directed to Customer Service Officers and/or Accounts Officers.

### **Applicable Charges:**

The majority of complaints will not result in charges or fees. No charges or fees as a result of a complaint will be made without prior instructions to the complainant.

Charges may be incurred in particular circumstances only, e.g. where we may need to recover equipment for disconnection, or if the complainant specifically requests for services or items which are outside the spectrum of the Wires Broadband services.

All costs of recovery will be notified to the complainant.
